

High Efficiency Constant Current Spotless COB LED Strips

Model: FLEX CC 24V WW COB HE SA IP20

Description

High-Efficiency COB Flexstrip delivers maximum light output with minimal power consumption, providing bright, uniform illumination without visible LED dots. Cuttable to custom lengths and compatible with aluminum channels for clean diffusion, this dimmable strip is available in multiple colours and intensities. It works seamlessly with remotes, wall switches, and Wi-Fi controls, giving precise, energy-efficient lighting exactly where you need it.

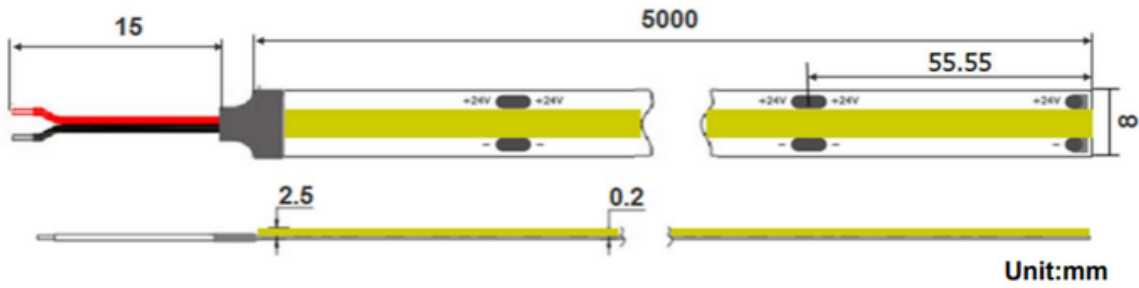

Application

- Undercabinet
- Toe kicks
- Wine rooms
- Display cases
- Stairways
- Accents
- Vehicles
- And more

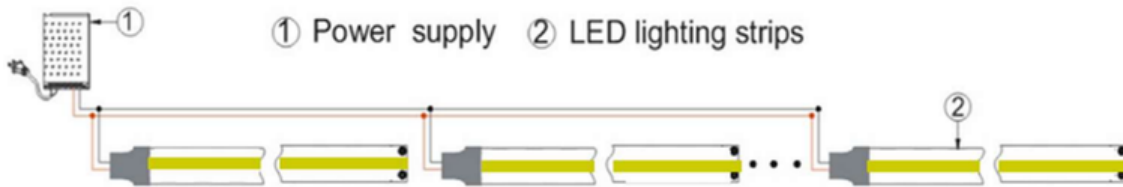

Specification

Power (w/m)	9W/M
Color	3000K
LED/M	320
Lumens Per Meter Lumens Per Watt	1030 - 1080 114 - 120
Roll Length	5M / 16.4ft
Dimming	Yes
PCB Width	10mm
Cutting	5cm
CRI	>90
Input	24V
Lifetime Hours	50,000
Warranty	3 Years - When installed with an Eco Lighting driver
Factory Wire Ends	2

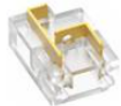

Dimensions

Connections

Connectors (sold separately)
