

RECESSED OR SURFACE-MOUNTED PIR MOTION SENSOR

Recessed motion sensor with a 10' Radius to activate and timer control

Features

- Uses passive infrared sensor to turn low voltage LED lighting on/off
- 3M (10') sensor range
- On time - 40 seconds
- Male and female barrel connector for quick connection

Applications

Cabinets | Drawers | Closets | Cupboards

Installation

Recessed, 15/32 to 1/2" (11 to 12.8mm) hole cutout

Specifications

Input Voltage	12V DC - 24V DC
Output Power	12V (72W) / 24V (144W)
Output Current	6A
Input Wire Length	47" (120cm)
Length to sensor	40" (100cm)
Wire Size	2 Wire (+/-) 22AWG
Working Temp	-24°C~60°C (-10°F~140°F)
Dimensions	L3 ^{1/2} x W2 ^{1/64} x H1 ^{3/8"} (L89 x W59 x H35mm)
Warranty	1 Year
